8. Principals Report *Mrs. Weed says she is very proud of our school. COVID cases are minimal if any. She states that our parents are fabulous. Thank you to our parents and community. Thank you to PTO ofr the hospitality and feeding our teachers. She has been working with the CUSD "Tree Guy" and maybe trying to ask PTO to add new trees to the campus. She is looking at trying to get 1 air purifier to try. She states that we need to see if they work, are quiet and affordable/sustainable. Remember conferences are coming up and they are virtual. She is looking at the Intent to Returns. She states that 95% our our families have sent them back. She does not have COA data yet, but most of our families are coming back. There are a small number going to WGA, but that was expected. She is still holding firm to the mitigation measures. The large play structures are still closed. If numbers continue to come down she MAYBE will try to open the play structures soon. Maybe. She appreciates our parents tructing KGA even though we can't be on campus right now.*

9. Q & A

-Is PTO looking for committee heads for next year? Sure! If you know you will be at KGA next year and want to volunteer let us know and we can train you now so you can hit the ground running next year!

10. Close Meeting *1st Jessica 2nd Ben*
